Security and flexibility

- The unique, patented, continuous sealing flange ensures seal integrity equal to traditional plastic trays.
- No mould changes required on existing plastic trays equipment.

Sustainability

- PaperSeal® trays use up to 90% less plastic than traditional trays.
- Easy separation of film liner from the paperboard after use, promoting recycling.
- The Italian Aticelca evaluation system has assigned a "B" degree of recyclability, allowing to dispose the tray in the paper bin.

Full customization

- Both the inside and outside of the tray can be fully customized in offset printing up to 5 colours.

Innovation

- Our paperboard packaging solutions meet functionality and performance of the equivalent plastic trays.

Applications

- Chilled and frozen meals that can be cooked in the microwave or a traditional oven.

Customization

- The outside of the tray can be customized in offset printing up to 5 colours.

Performance & security granted by **CRYOVAC** materials

ECO-SUSTAINABILITY

MULTIPURPOSE APPLICATION

PaperSeal Shape®

- is a patented paperboard food tray designed for round, deep and multi-compartment applications

PaperSeal Shape®

- is ideal for fresh prepared fruit and salads, dips and chilled ready-to-eat meals where a modified atmosphere is required to maintain shelf life.

PaperSeal Shape®

- reduces plastic by 80 - 90 percent

The Italian Aticelca evaluation system has assigned a "A" degree of recyclability, the important thing is to separate the two elements (paper and liner) and throw them in their separate collection bins.

Package Performance:

- Vacuum skin benefit ensures optimal package performance and extended shelf-life.

Irregular Shapes:

- Ability to pack irregular shapes for better merchandising.

Sustainability

- Up to 80% less plastic than traditional trays
- It can be recycled in paper thanks to Aticelca B certification (according to Italian law)
- The liner can be easily separated from the paperboard

Reclosable Packaging:

Continuous freshness.

Sustainability Confidence:

Paper conveys a solid green message. Up to 70% more packs on shelves than an equivalent plastic tray.

Outstanding Communication:

Front and back customized offset printing up to 6+6 colours.

FULLY PRINTABLE

- Innovative material with less packaging elements and fully printable. The paperboard is produced from renewable fiber sourced from sustainably-managed forests

EASY SLICE SEPARATION

- Easy slice separation and no customer frustration.

EASY OPENING PACK

SHAPED WINDOW

- Laser cutting of paper allows to create several window shapes.
